

## HEADBOARD MOUNTING INSTRUCTIONS

When ordered with a Jussi Bed, your Jussi Headboard will come with fittings that slide onto fittings that are installed on the boxsprings. On a king bed, when two box springs are used, you will need two people to push the box springs closer together to fill any gap while the headboard is slid into place. See figure 1.

A “U” shaped clip can be used to clip two box springs together to make sure that they don’t separate, see figure 2.
